About Me:

Hello, i'm known as Keekz, i'm a 17 year old freelance SFX Engineer for fun, who has worked on the ROBLOX platform amongst others such as unity & unreal engine markets. notable webpage games I've worked on such as Skidson Online & Dueling Book are some to name. I've got a vast experience in multiple genres and Foley work. I not only do original creations but also editing and enhancement so if you don't want to commission a brand new sound effect, I could work on renovating one you request.

Work Skills:

- Able to make time & work on a tight schedule.
- Able to work well with others & communicate freely with developers on changes.
- Highly creative and be able to bring a great experience
- Heavy experience in sound design
- Fluent English & Shona speaking & texting ability.
- Powerful work ethic and motivation.

Ive never commissioned SFX before, however when I got into contact with RS, he guided me towards the right direction I wanted to go. He was also able to make me many different versions of what I wanted, and was very patient. On top of all this he was reliable, his skills are professional grade, and he was affordable. I HIGHLY recommend working with RS if youre looking to maintain higher player retention, sounds help!
